Hi Kami,

As I mentioned, I am currently trying to get out a partial response to the FOIA mentioned in the title. Only the AO is missing. I have documents from NERL, NRMRL and OSP for it (some that are being withheld).

How would you like to handle this? I am only making the determination to withhold 2 things (based on OGC/subject-matter expert recommendations). The other FOIA coordinators are withholding some other things though. I am scanning and organizing all of it and plan to have it ready to send to you today. Would you like to go through it together? Or should I send the package to review? Should I draft an email response?

The requestor called today asking about that partial response that I discussed with him.

BTW, I am also almost done with another Greenpeace FOIA (and will have a partial response ready to go within the week). Let's get this first one done and then follow the same process for the second one.

I can give you a call or we can meet later today if you're in.

Thanks,

Claudia
